Graphene Investments strives to meet its clients' expectations under all circumstances. To this end, the company makes every effort to run its activities in a way that makes discontent unlikely, and deals with investors complaints in such a way that every sign of dissatisfaction expressed, verbally or in writing, receives a swift, effective response.

Investors may express their complaints through their usual contact or, for a more formal channel, through the following contact details:

The Company commits to acknowledging receipt of any complaint within two business days (which guarantees a maximum of "ten business days from send date", as requested by the authorities, unless the complaint was sent through an abnormally slow channel, in which case the Company shall not be held responsible), **and answering it within seven business days**. If particular circumstances make it impossible to provide a full answer within that timeframe, the first available elements will be provided, together with an explanation of the delay and a precise date by which the final answer should be expected. The time between the initial complaint and the final response may not exceed one month.

Should the company fail to provide a satisfactory solution, investors are entitled to request a mediation by the French regulator, the Autorité des Marchés Financiers (AMF), by writing to:

Le Médiateur
